LES DAUPHINS

IGP MÉDITERRANÉE RED

The new generation of winegrowers in our region are involved in a sustainable production and shows a total commitment to protection of the local territory and biodiversity.

CLIMATE AND SOIL

The vineyard is located in the South-East of France, around the village of Tulette. A sunny Mediterranean climate cooled by Mistral winds, very beneficial for the vine.

There are two different soil types : clay limestone soil formed of sedimentary rock and pebbles and stony soil with a sandy sub-soil.

VINEYARD AND VINIFICATION

The quality of our wines lies in the careful attention given to each stage of the winemaking process. This wine is made from highly aromatic local grape varieties. Harvested at perfect maturity to obtain excellent aromatic concentration.

TASTING NOTES

The elegant red colour reveals fresh, lively aromas. Extremely light, delicate and delicious, this cuvee also stands out for its notes of rose petal and guava and its unexpected aromatic intensity.

GRAPE VARIETIES

60% Grenache
25% Merlot
15% Syrah

SERVICE

16-18°C
